January 3, 2008

To all membership,

As most of you are unaware our Associations' Bylaws are quite ancient and have not been addressed since April of 1991. This is 17 years!!  
I have sent a Christmas memo to all of you stating my intent to amend these over the Christmas break.

Now a little background as to what has been done.

- All that was in our existing Constitution and Bylaws is still there it has only been updated to 2007/2008 standards as set by our National and other branches more current around the country.
- The order to which our existing documents were written was incoherent so they have been placed according to Article and Section as per National and other branches template.
- It has been re-typed into a Microsoft Word format so as to facilitate further upgrade or amendment. There is no modern electronic document of our existing Constitution and Bylaws only a "Dot Matrix" print out from 1991.

Now according to our Bylaws as stated in (the new) Article VII, Section 1 – Method of Alteration these "changes must be posted for at least thirty (30) days before being acted upon by Special Resolution ..."

Let this serve as a motion to "Disregard our old Bylaws and Constitution and replace them with a modern more legal binding document"

Please consider this matter as we will vote on it at our February 4, 2008 Dinner Meeting at 7:00 P.M. at Suede.

Kind regards,

***Chef Doug Overes***
